Experience

Lead Server

— Covenant Living at the Shores, Mercer Island, WA — Nov 2023 – February 2026

- Communicate effectively with kitchen and administration to meet individual dietary needs and uphold service standards.
- Recognized for reliability, leadership, and consistent performance in a fast-paced environment.

- Coordinate front-of-house operations and lead a service team in providing high quality dining experience for senior residents.
- Train and mentor new staff, ensuring professionalism, efficiency, and attention to detail.

Computer Tutor

— Asian Counseling and Referral Service (ACRS), Seattle, WA — June 2025 – September 2025

- Tutor community members with limited English proficiency in digital literacy skills, including internet, email, and document editing.
- Adapt explanations to diverse language backgrounds to ensure clarity and accessibility.
- Assist clients with minor technical issues in the computer lab.

STEM Instructor

— Stemtree, Redmond, WA — October 2026 – current

- Instruct K–8 students in four STEM disciplines: Science, Mathematics, Scratch Programming, and Electrical Engineering/Python.
- Deliver structured, project-based lessons using prepared curricula, hands-on learning kits, and digital tools.
- Introduce foundational programming, computational thinking, and engineering concepts through interactive activities.
- Provide individualized guidance to students, adapting explanations and instruction to accommodate different learning styles and skill levels.
- Facilitate collaborative projects that encourage critical thinking, creativity, and problem-solving.
- Maintain an organized, inclusive learning environment while monitoring student engagement, classroom behavior, and safety.
